

SWISS
CONTRIBUTION

Swiss support for solar energy in Poland

6th Solar Industry Forum, Torun, 13 May, 2013

Roland Python

Deputy Director

Swiss Contribution Office

Introduction to Swiss Contribution

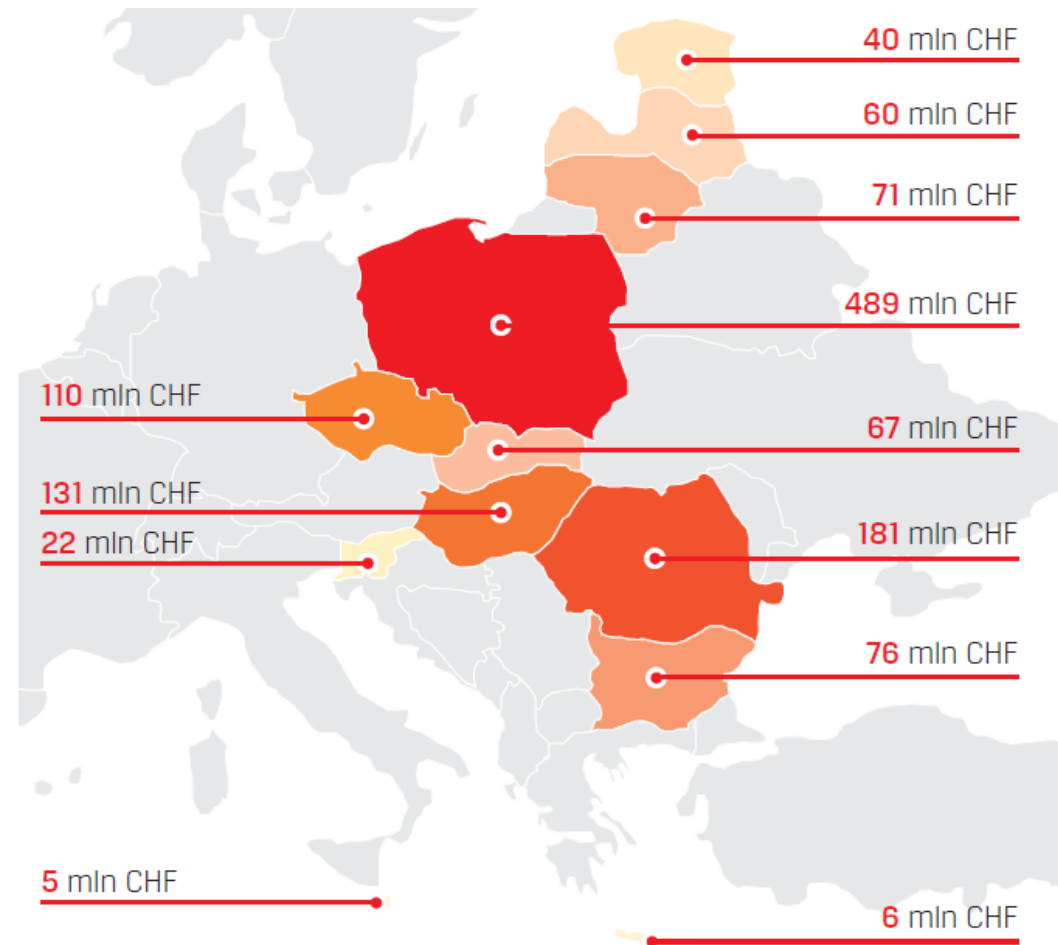

- Swiss Contribution to the EU-NMS
- Energy in Switzerland
- Solar projects in Poland – Donor's perspective

Swiss Enlargement Contribution

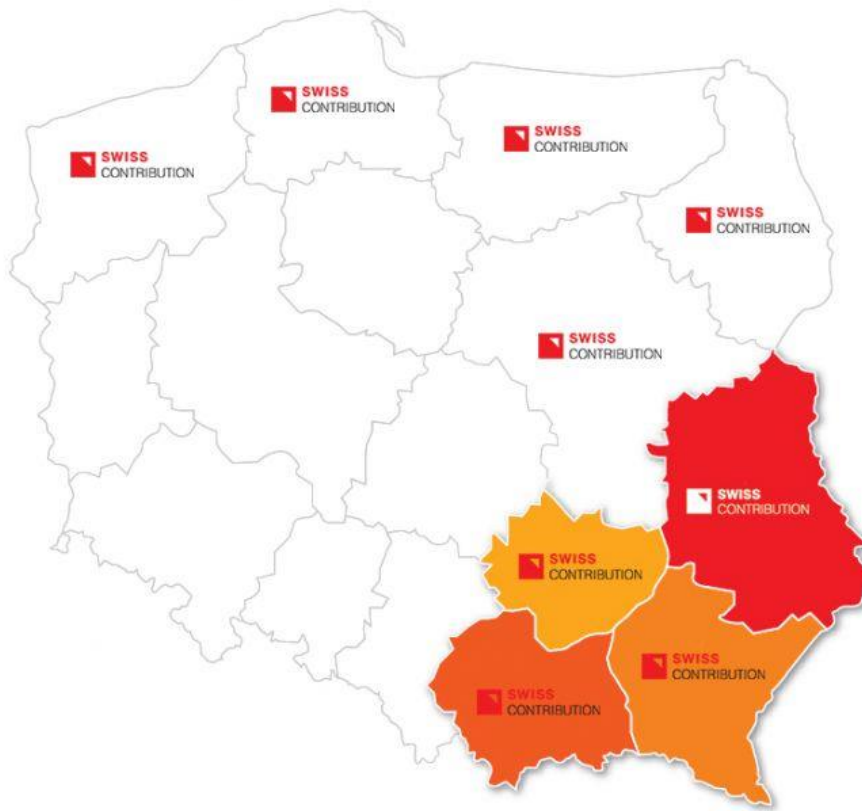

1.3 billion CH

2007-2017

For reducing
disparities within
the enlarged EU

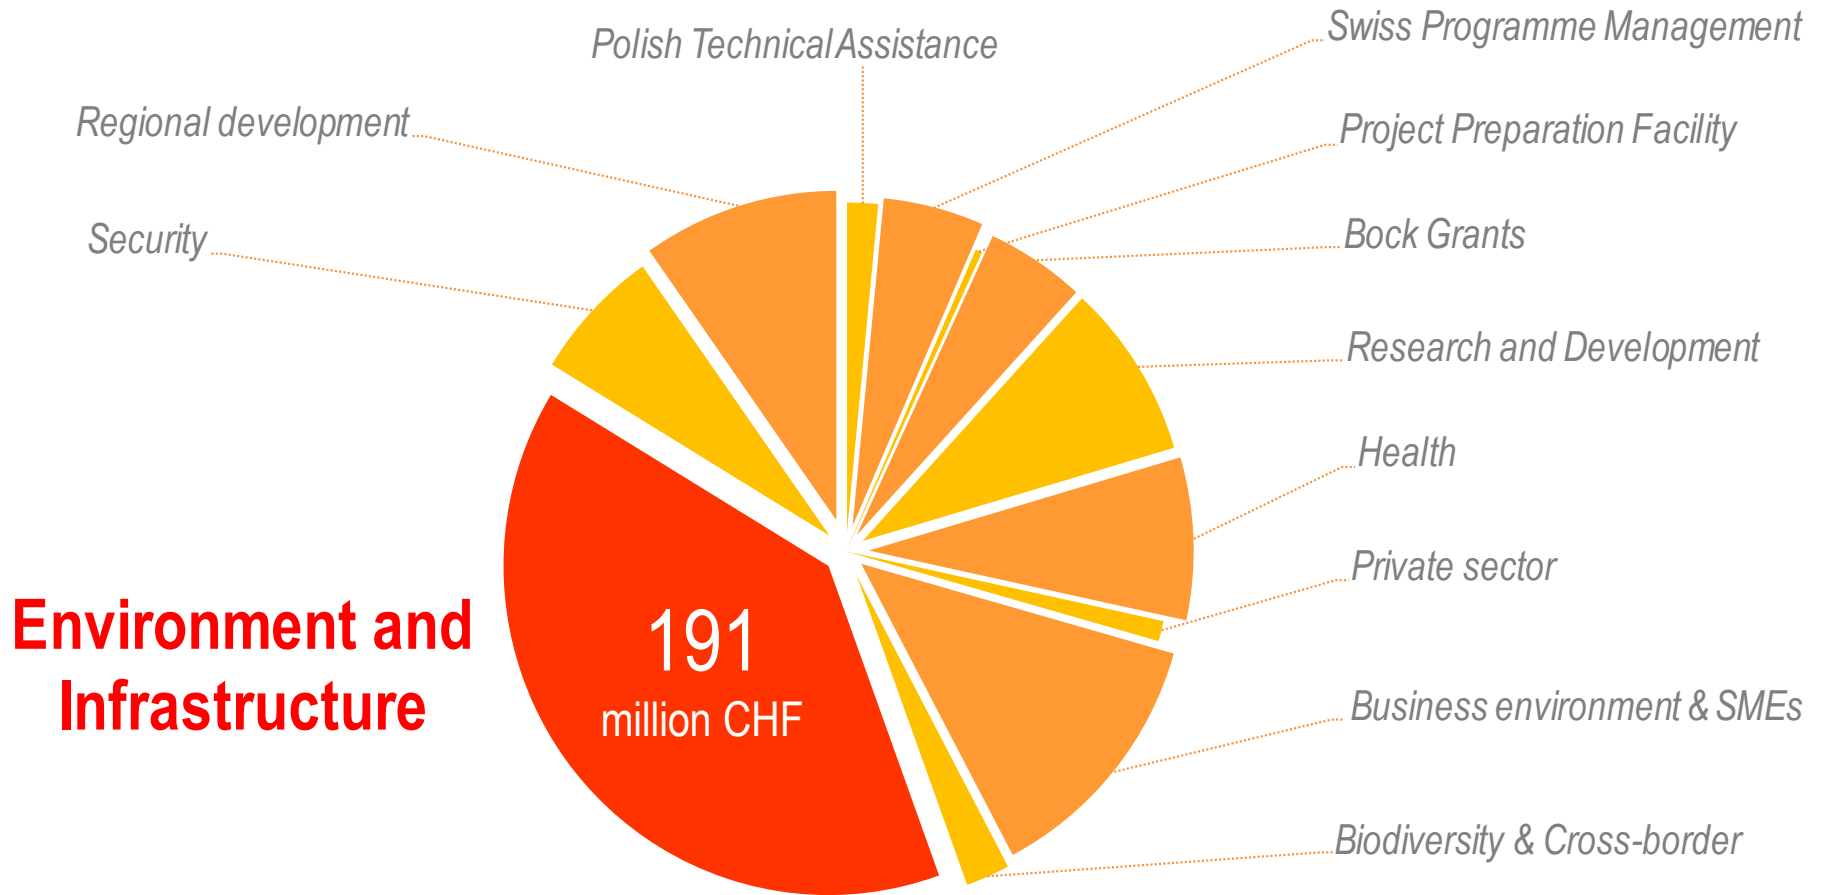

Swiss – Polish Cooperation Programme

489 million CHF

55 projects

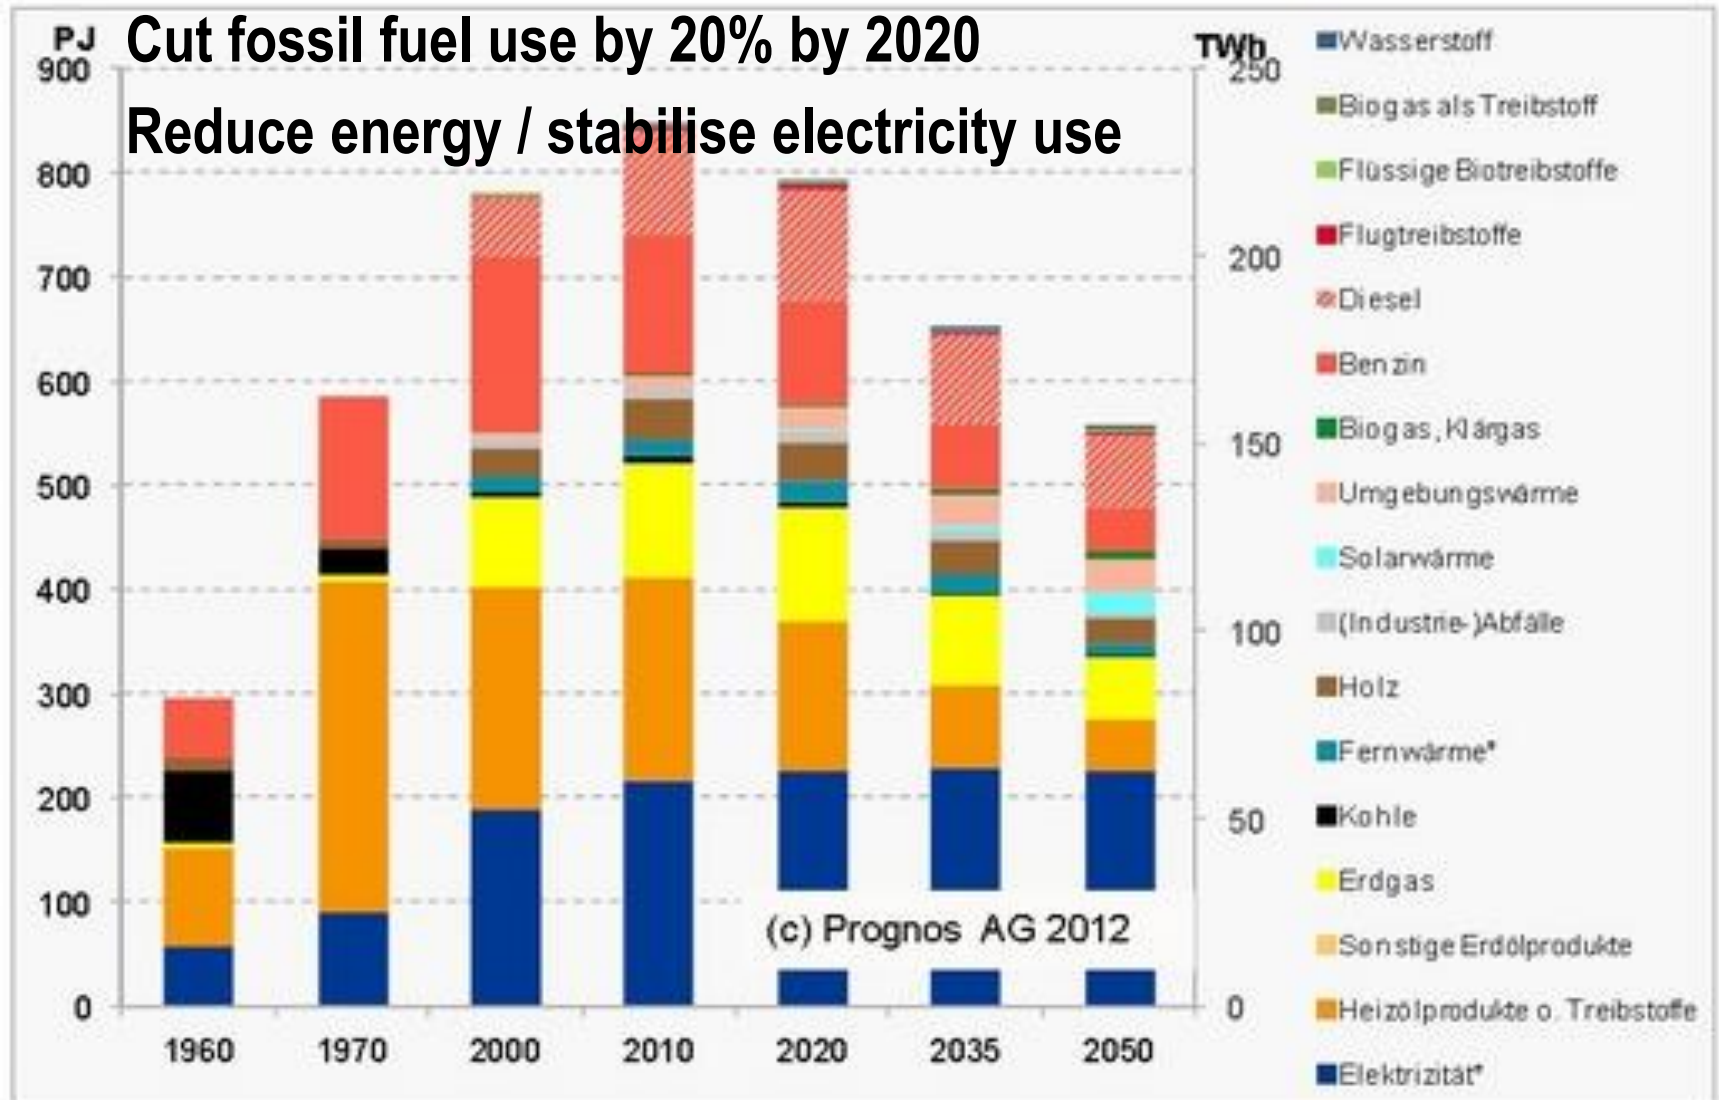

**45-100%
co-financing**

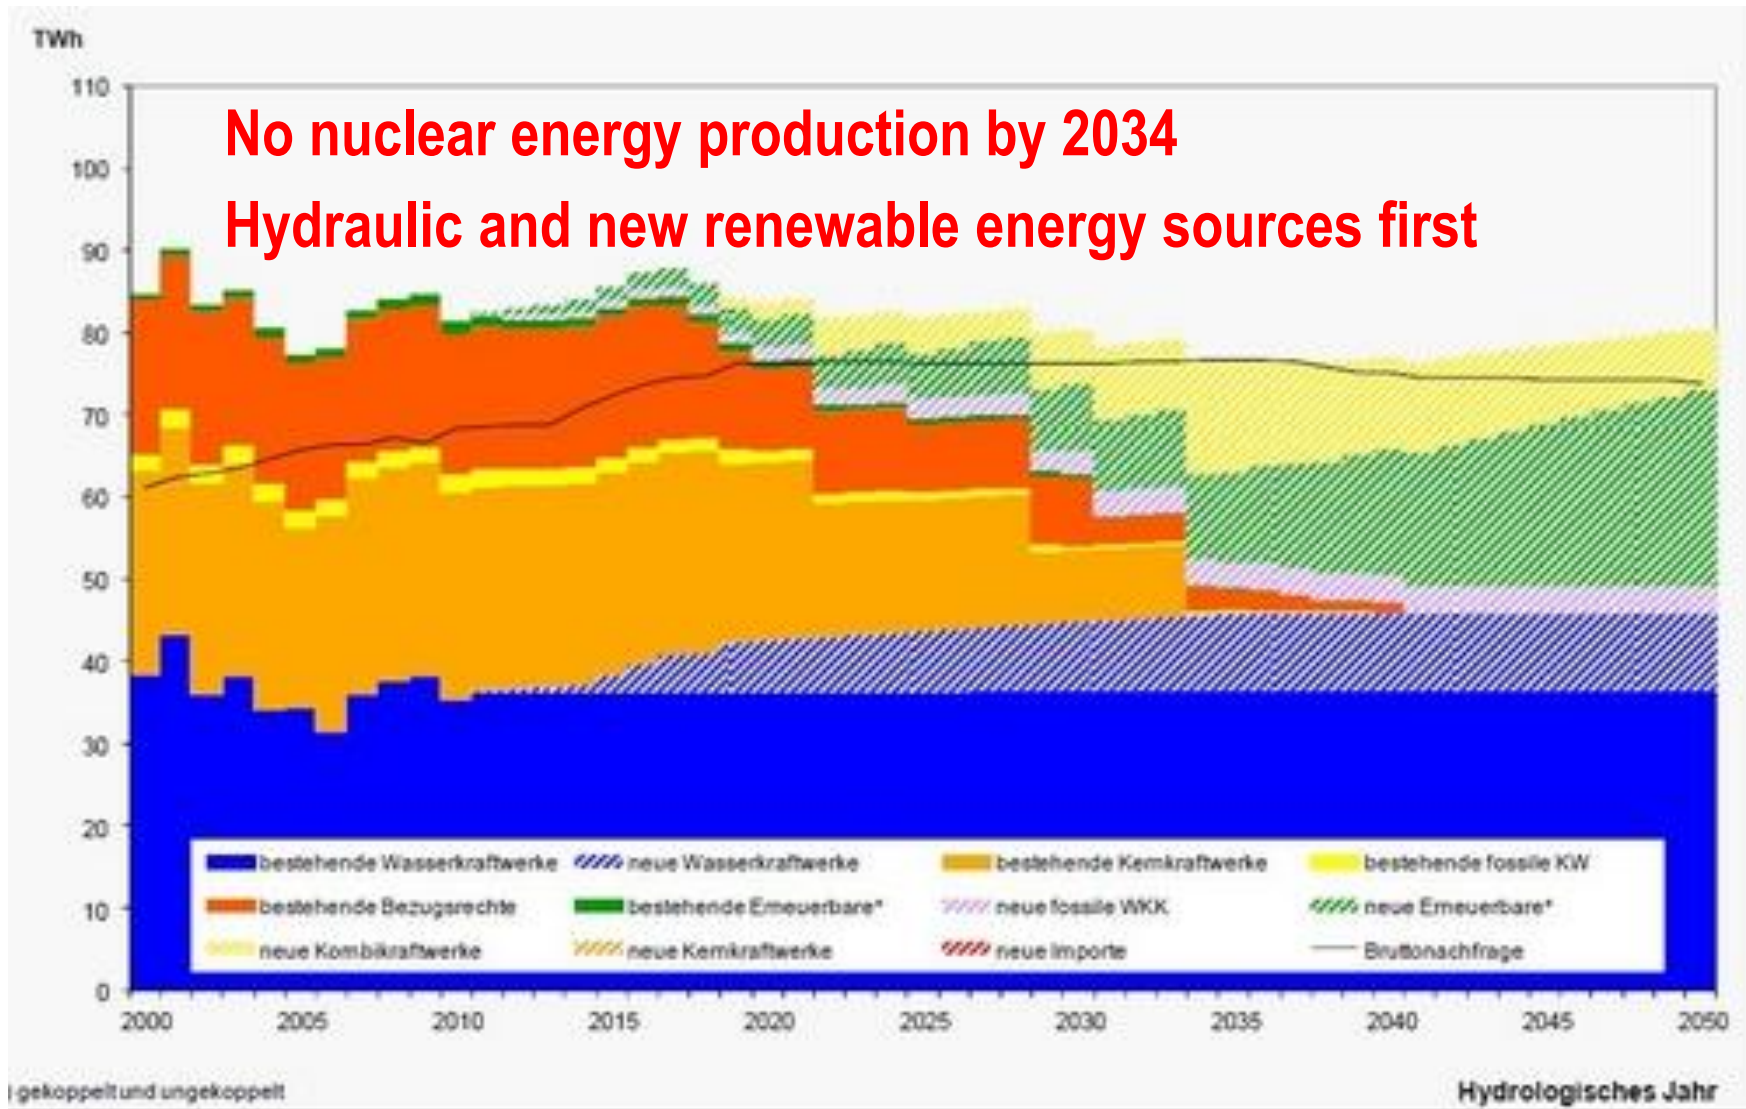

Energy in Switzerland

- Policy: **sustainable use of energy**
 - efficient consumption
 - increased use of renewable energy
- Parliamentary resolution (June 2011) **not to replace any nuclear reactors**
- „Energy Strategy 2050“ **to secure long term energy supply**

Use of Energy in Switzerland

Swiss Contribution to Solar Energy in PL

- 100 million CHF for renewable energy
- 7 projects (5 strictly solar)
- 17 000 solar-thermal installations
- 7 PV systems
- Swiss Contribution: 45-85%
- Objectives: Environment, CO₂ reduction, Economy, Health protection, Quality of life

Switzerland's approach

Change through flagship projects:

- Critical mass
- High quality
- Promotion / awareness

6 Key Elements for Donnor

1. Clear project proposal and objective

- Assessment
- CH & PL expertise

2. Monitoring system

- Report on results
- Efficient management

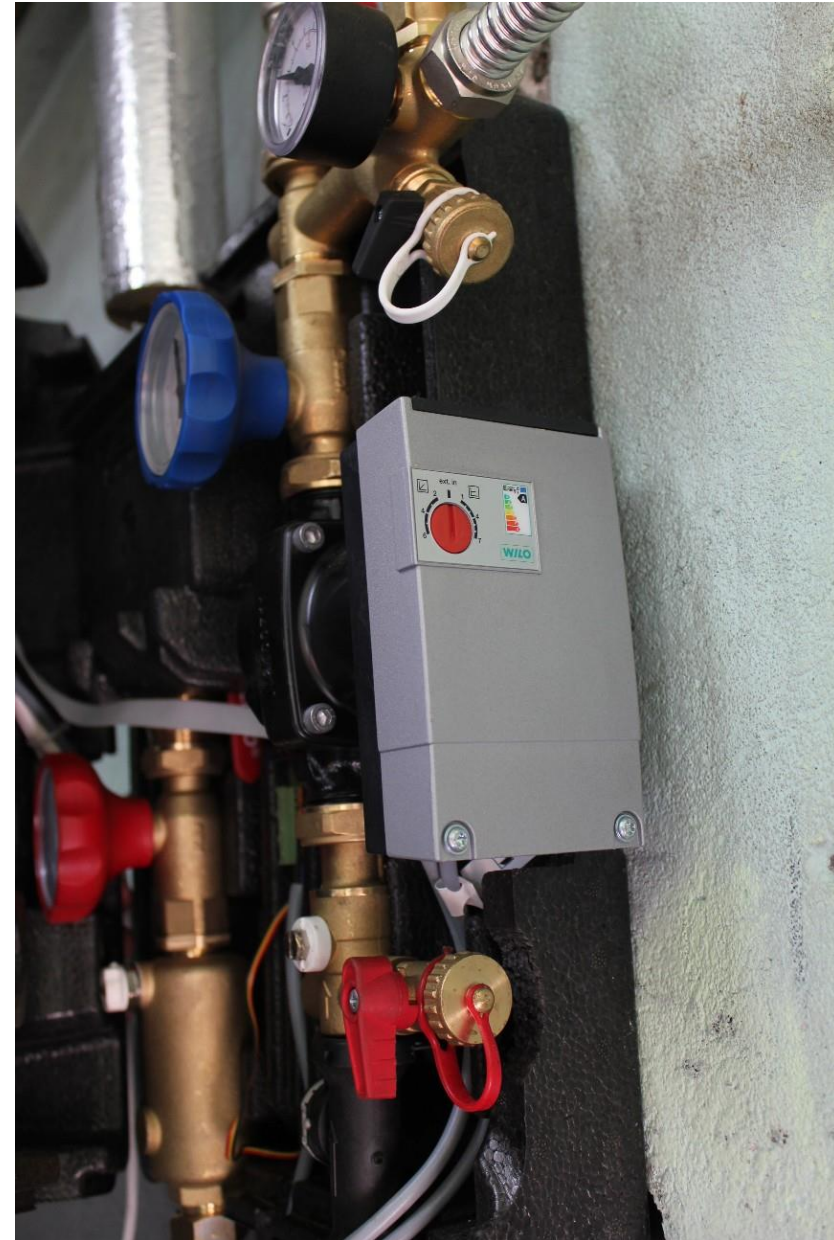

3. Tender:

- Technical specifications
- Transparency
- Other than price criteria

4. Solid work supervision

5. Dedicated project managers

- Support, training, visits
- CH & PL expertise

6. Give value to people and their work
